

# LeaveRegister™ ASSIST 4.0

**FINALLY YOU  
CAN FOCUS ON  
THE STUDENTS.**

# LeaveRegister™ ASSIST 4.0

## THE BOARDING SCHOOL MARKET HAS CHANGED FOREVER...

Boarding used to be treated like the poor cousin of a school only being recognised as a necessary evil when catering for remotely located students.

In the 1990's things started to change. Parents stopped placing their children in boarding for purely geographic reasons. About the same time the number of international boarding students was increasing dramatically. Boarding schools realized that their market had changed from 'just providing a bed away from home' to actually equipping students with superior academic and character building opportunities. Boarding has now once again claimed its place as the vibrant hub of the school.

## WITH THE DAWN OF THE 21st CENTURY COMES DEMANDS FOR SAVINGS IN TIME, EFFORT AND COST.

**At the click of a mouse LeaveRegister Assist improves productivity and accuracy of information across all boarding houses. All information is secured using passwords.**

- Real-time leave monitoring.
- Historic student roll checking.
- Weekend and daily leave management.
- Accurate meal number calculations.
- Behavior logging.
- Personal student leave profile reports.
- Audit trail for security checking.
- Emergency contact management.

### TESTIMONIAL

*"We have been using LeaveRegister Assist for the last 5 years, I love the fact that I can have up to the minute accurate numbers for meals at the click of a mouse saving on over production of food. The accuracy now achieved has meant an overall increase in the quality of the food served by eliminating costly wastage (over production)."*

**Russell Gray** (Catering Manager – St Andrews College)
